

What do I need to know about RDR2?

Red Dead Redemption is a massively detailed game which has a single player story mode, one of the longest we have ever seen, plus an online mode which is endless. This game is most certainly recommended for 18+ as per the PEGI rating although some features within the game look suitable, there is a lot of murder, excessive swearing & prostitution within the game.

This game harnesses an extremely detailed gameplay with gore and graphic content an integral part of that story and effect. It is detailed and there is no way to turn this off, for younger users.

Within the game there is a large online feature which updates with events on a regular basis, like all online games this allows for a lot of communication, teaming up and taking on the challenges together and gathering resources.

Rockstar (the game owners) have a reporting function within the game, but it is also recommended to consider the reporting features within Xbox / Playstation, depending on the situation. Abuse of the reporting function (false reporting) can result in punishments to yourself.

Positive Points

1. Used correctly, the game has one of the most detailed and immersive experiences available on a console/PC
2. The reporting features within Rockstar appear to be responsive, from feedback of users.
3. There are no features for people to speak to each other within the platform

Negative Points

1. To younger children, the content of the game has been known to upset and cause other emotional issues where they cannot handle some of the gameplay.
2. After purchasing the game, if you wish to play online, there are expensive (but optional) in-game purchases to enhance your experience.

Parent Opinion: (of a 14 year old)

First of all, RDR2 is a great game, with an immensely interesting and immersive story, but, very graphic. lots of gore, language, and mature themes. For example, people can be shot, stabbed, lassoed, mutilated, dismembered, Etc. Characters will have frequent conversations with mature themes, such as sex and alcohol.

"You cannot put a price on the value of open and honest communication within the home."
